

2.1 Please try to configure Chrome Browser and navigate to <http://magento.com>. Automate all the features

in the registration page using the XPATH locators except captcha.

2.2 Code

```
package selenium;

import org.openqa.selenium.By;
import org.openqa.selenium.WebDriver;
import org.openqa.selenium.chrome.ChromeDriver;

public class Magento {

    public static void main(String[] args) throws InterruptedException {

        System.setProperty("webdriver.chrome.driver", "./drivers/chromedriver.exe");
        WebDriver driver=new ChromeDriver();

        driver.manage().window().maximize();

        driver.get("http://magento.com/");

        driver.findElement(By.xpath("//span[text()='Account']/parent::a")).click();

        Thread.sleep(2000);

        driver.findElement(By.xpath("//button[@type='button']")).click();

        driver.findElement(By.id("firstname")).sendKeys("Pavithra");
        driver.findElement(By.id("lastname")).sendKeys("Prasanth");
        driver.findElement(By.name("email")).sendKeys("hihello@gmail.com");

        driver.findElement(By.id("password")).sendKeys("Acadgild@123");

        driver.findElement(By.xpath("//input[@id='confirmation']")).sendKeys("Acadgild@123");

        driver.findElement(By.xpath("//input[@id='agree_terms']")).click();

    }

}
```

2.3 Explanation of the code

Connected with Chrome Browser

Maximizing the window

Clicking on the buttons

Using thread.sleep since the register button is taking long time to load

Filling the registration form
